

# LEADER IMPACT

## VENTURE for Marketplace and Business Leaders

- Do you lack confidence in sharing your faith journey in a relevant way with your colleagues and peers?
- Do you want to have honest and authentic conversations with your colleagues and peers so that they have the opportunity to be introduced to a transforming relationship with Christ?
- Does it bother you that you miss opportunities to share your own faith story when asked a question about your faith?
- Do you feel inadequate when trying to relate your own faith journey to the spiritual needs of someone else?

Venture Training is a high quality video and workbook training specifically designed for marketplace leaders looking to share their own faith journey in an effective way with their peers.

We have two training options available for leaders - Venture Group Training in group setting complete with a facilitator guide and Venture Solo for individuals to complete at their own pace on-demand.

We highly recommend Venture Group training for Leader focused small groups who would like to discuss as they learn and share personal goals and experiences. Venture Group training is accessible virtually so can be completed with a fully virtual group or an in-person setting. Group facilitators can access the training here. Once the facilitator has accessed the facilitator guide they will be given instructions for their group members to join.

Venture Solo training is available for individuals to complete at their own pace.

Venture Solo training includes:

- Training videos and workbook
- Stories from other Leaders who are continuing to learn to share their own faith stories.
- Email prompts and access to an accountability coach if requested.
- Additional resources through the training
